

LIFEGuard® Joint Formula

Helps Maintain the Cushioning Effect Joints Need for Optimal Mobility, Joint Comfort and Range of Motion*

Don't let anything get in the way of a wonderful, active life.

Through exercise and normal wear and tear, natural processes can diminish joint flexibility, making movement more difficult. When it's hard to move like you once did, the activities you've always enjoyed become more difficult. Over time, the body is simply not producing cartilage and lubricating fluid like it once did to keep bone from rubbing against bone.

- LIFEGuard Joint Formula gets to the source of the problem by helping to strengthen cartilage and increase the natural lubricating fluid around joints.*
- This proprietary formula helps to maintain the cushioning effect that is needed to help get you moving comfortably and easily.*
- Until now, many products worked to alleviate the problem, but did nothing to help maintain healthy joint function. Now there's LIFEGuard Joint Formula - help for the long-term.
- This is one of the ONLY formulas that includes six joint health ingredients: Glucosamine, Chondroitin Sulfate and Methyl-Sulfonyl-Methane. In addition, Joint Formula contains Manganese, Turmeric with 90% Curcumin and Boswella Serrata Extract which support proper joint function.*

Try it for 3 days and start to feel a difference.

Please carefully read product label for instructions, cautions and warnings.

Suggested Usage: Take three tablets, two times daily. Daily intake should not exceed six tablets.

Cautions/Warnings: Not to be used by children under the age of 18. If you have an allergy to shellfish, are pregnant, expect to become pregnant, lactating, have high blood pressure, under a physician's care or taking medication, consult with your health professional before taking this product. Do not exceed recommended serving. Keep out of reach of children. Store at room temperature. Avoid excessive heat. Do not use if inner seal is broken or missing.
